NO. OF PAGES 1 25X1

PLACE ACQUIRED

NO. OF ENCLS. (LISTED BELOW) 25X1

DATE OF INFO

639846

SUPPLEMENT TO REPORT NO.

25X1

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U. S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. In 1953, 50 million DME were used on the construction work for Zinnhuette Freiberg. In order to keep the work going, another 170 million DME were needed but were not available on 7 July 1954. If this money cannot be obtained, the completion of the plant will take another three years at least. Originally the yearly production of this plant was intended to be 10,000 metric tons of fine tin.

2. It was planned to use 1,150 kilograms of coke per metric ton of pig iron at EKS, Fuerstenberg/Oder.1 However, because of the poor quality of the coke, from 1,400 to 1,600 kilograms of coke per metric ton are actually used.

1. Comment: Now called Stalinstadt.
